

FRONTLINE DOMESTIC AND FAMILY VIOLENCE WORK IS AT RISK

**GUARANTEE ONGOING FUNDING FOR
COMMUNITY LEGAL CENTRES BY
DECEMBER 2024.**

**Community legal centres are in a
funding and workforce crisis.**

People go to community legal centres for help to keep themselves and their children safe from violence.

But chronic underfunding and funding insecurity have plunged community legal centres into crisis. With less than a year's funding left, centres are now in the most uncertain position they've ever faced in the past decade.

It's already too late to prevent the crisis. **It's not too late to prevent total catastrophe, but the countdown is on.**

We need \$35 million this year to address the workforce crisis facing community legal centres.

We need at least \$270 million per year for community legal centres from 1 July 2025, committed by December 2024.

We need an extra \$95 million for frontline domestic and family violence work.
